

Cost Services

Precision. Clarity. Confidence. Your Partner in Federal Project Cost Success.

**SVS Cost Estimating
by the Numbers**

**\$200K to
\$3.5 Billion**
Range of Project
Costs

10,000+
Projects
Completed

In federal projects, staying on budget is paramount, and unexpected costs can threaten both project timelines and missions. Our cost estimating service specializes in providing accurate and detailed estimates tailored specifically for federal agencies. With our expert insights, you can confidently navigate complex project requirements, knowing that you have precise cost data to keep your project within scope and on budget.

Our team brings extensive experience in federal projects, offering a deep understanding of the unique challenges and standards these projects require. We start with a comprehensive analysis of your project's specifications and compliance needs, then develop a precise cost estimate using the latest data and industry best practices. Once your estimate is ready, we guide you through the details, ensuring clarity and confidence at every step.

Cost Estimating & Scheduling

SVS offers unparalleled expertise in **MCACES 2nd Generation (MII) estimating**, which is a vital component of our federal project experience. With decades of on-site knowledge, our team ensures rigorous, accurate, and transparent cost assessments that guide stakeholders through each phase of a project with clarity and confidence. We are adept at managing complex federal projects, collaborating closely with agencies.

Our scheduling expertise integrates seamlessly with our cost estimating services, providing a comprehensive roadmap for project timelines and milestones. This ensures that every project remains on track from inception to completion, minimizing delays and maximizing efficiency. Our commitment to excellence and precision empowers federal clients to make informed decisions and achieve project success with dependable cost insights and reliable scheduling frameworks.

WHAT WE DO

- A&E Design Cost Estimates
- Independent Cost Estimates
- Third-Party Reviews
- Budget Verification for stakeholders and owners
- Cost Reduction Analysis
- Microsoft® Project Scheduling
- Primavera® P6 Scheduling

"[we] were very pleased with the estimate also, and its level of detail based on available input and limitations presented by the uniqueness of this project." - SFCS Project Manager

Avoid Costly Delays and Overruns with Expert Risk Management

Are your projects frequently going over budget or behind schedule? Unidentified risks can turn into expensive setbacks, draining your resources and affecting project success.

At Strategic Value Solutions, Inc. (SVS), we specialize in Construction Cost and Schedule Risk Analysis (CSRA) designed to identify, assess, and mitigate risks, ensuring your projects are completed on time and within budget.

Our comprehensive approach includes:

1. **Tailored Risk Rating Scales** - We adjust risk tolerance to fit your unique project.
2. **Enhanced Risk Prioritization** - Focus resources where they matter most.
3. **Monte Carlo Simulations** - Prepare for the unexpected with advanced forecasting and modeling from a Risk Professional.
4. **Expert Integration** - Combine cost and schedule expertise for precise impact analysis.

Don't let unforeseen risks derail your project. Contact us today to take control and safeguard your project's success.

With over 100 workshops annually and certified professionals, SVS delivers in-depth, meaningful risk analysis, tailored to your specific project needs, ensuring that your projects stay on track and exceed expectations.
